Re: Lower Darby Creek Area Superfund Site 104e Request

Dear Ms. Prisk:

This will confirm our conversation regarding the request for information regarding the Folcroft Chemical Site and PPG's initial submission dated August 1, 2001. A copy of that letter is attached.

PPG owned the Folcroft from 1985 when the facility was purchased. Details of that transaction are being retrieved from our record storage. The property transferred from PPG as part of an "asset swap" with BASF Lacke + Farben AG on August 12, 1997.

Our search also includes any environmental records for the operation of the site prior to or during our ownership. To date no such records have been identified.

I look forward to your response to our request for an extension of time to September 28, 2001.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Paul M. King', with a stylized flourish at the end.
Paul M. King

Re: Lower Darby Creek Area Superfund Site 104e Request

Dear Ms. Prisk:

This will serve as the initial response of PPG Industries, Inc regarding the request for information regarding the Folcroft Chemical Site.

PPG owned the Folcroft for a period of time - from the mid 1980's to 1997 - when PPG sold the site. As a result of this history, PPG has limited information immediately available on this site. Inorder to more fully respond to your request, we request an extension of time to September 28, 2001.

I look forward to your response to this request. Please contact me with your response.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Paul M. King'. The signature is fluid and cursive, with the first name 'Paul' being more prominent.

Paul M. King
